

E-Signing Test Validation Document

This clean, text-only document serves as a target layout matrix for programmatic electronic signature verification pipelines.

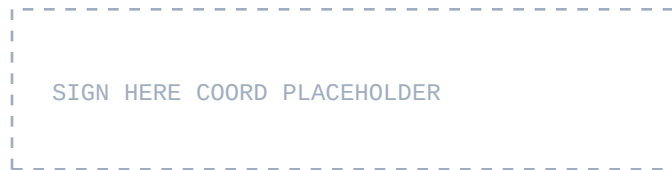

1. Text-Anchor Automation Targets

The tags embedded below can be captured by programmatic regex lookups or API auto-place matchers:

- DocuSign Anchor String Tag: `/sn1/`
- Adobe Sign Text Field Tag: `{{Sig_es_:signer1:signature}}`
- Regex Plaintext Target: `[SIGN_HERE_NOW]`

2. Cryptographic / Coordinate Signature Placeholder Block

The zone below marks the absolute target geometry boundary for backend byte-range signature fields.

Acknowledgment and Signature

I, Terrence Loring Voelker, agree to the terms above.

Date: 8/15/2026

Signature:

A handwritten signature in black ink, consisting of a series of connected strokes that form a stylized representation of the name Terrence Loring Voelker.
